RED ZONES - THE DARK SIDE OF THE SEA

4x60' | Produced by Frederick Gillingham for Quintus Originals | Production year: 2023/2024

Red Zones takes viewers on a journey into the heart of the world's last remaining untamed frontiers. Despite the rapidly developing modern world, there are still fragile territories which defy development and continue to operate outside of law and order. However the prohibited practices and illicit economies that are fueling these hidden worlds are also destroying them and the people who habit them. Through intimate and unfiltered access, this series will meet the heroes, villains and victims who struggle to survive, protect and profit off the dark side of the map.

POVERTY IN PARADISE: LAS VEGAS

4x60' | Produced by Frederick Gillingham for Quintus Originals | Production year: 2022

The bright lights of Vegas are a dark reality for some of the city's most forgotten inhabitants. Homelessness in Vegas takes many forms, most of which are rarely seen and deliberately ignored. This documentary series explores the realities of being homeless in Las Vegas where everyday is a battle for survival. Told through the eyes of the homeless community, the police, real estate agents and homeless shelter volunteers, this film explores the depths of the city and unearths the issues, and complexities of being homeless in one of America's most divided cities.

EARTHRISE MISSION CLIMATE

2x60' / 1x120' | Producer: WeltN24 | Production year: 2022

Heat, drought, floods - climate change is changing our planet. The consequences range from devastating extreme weather and the creeping rise in sea level to small shifts in the Earth's gravity. Various factors influence the climate, a complex interaction. Not all connections are directly recognizable, others can even be observed from space today. Man changes the earth. Space travel plays a crucial role in recognizing these changes in the Earth system across the board. But more and more technology is also being used today to slow down global warming. It's a race against time because climate change is already changing life on earth.

MUD MOUNTAIN HAULERS 3

6x60' | Producer: Bell Media | Production year: 2023

Taking place "just down the road" from the Highway Thru Hell, the show follows two brothers, Craig and Brent LeBeau, who have separate logging businesses in B.C. Facing mud-soaked mountains, fierce competition, and the roughest time the industry's seen in decades, Craig LeBeau's got tough decisions to make. But this hard-ass logger always puts family and crew first, and Craig must start by burying the hatchet with his brother to keep his third-generation logging business alive.

PETS & PICKERS 2

6x60' | Producer: Bell Media | Production year: 2023

Pets & Pickers is the story of animals, their owners, and the special team of veterinarians who care for them. To fund these treatments, the hospital has a unique solution: their thrift store. Motivated by extraordinary compassion and belief that all animals deserve treatment, the vet and thrift store team work tirelessly to offer pet families in-need access to life-saving healthcare. It is a one-of-a-kind relationship with an uplifting mission: to help animals and their people.
